CMPT 276 - AI Disclosure Form - Summer 2025

Why this survey? This disclosure form aims to *help us understand and reduce any potential risks* related to the use of AI tools in this course.

Please complete the survey **by yourself** and be **truthful**. *Using AI tools will not negatively affect your marks for the assignment/lab/etc.*

What do we mean by AI tools in this survey?

AI content generators refer to any tools that create any type of content, including (but not limited to):

- ChatGPT and all other large-scale language models;
- Stable Diffusion and other AI-based Image Generators;
- Code extensions for IDEs;
- Other tools that are capable of generating text, image, codes, or any other content for the course work. BUT, Grammarly and other grammar checkers are NOT included.

For more information on our policy, please refer to: https://parsa-rajabi.github.io/CMPT-276/#/ai-policy

1. First Name (as appears on Canvas) *

   Parminder

2. Last Name (as appears on Canvas) *

   Randhawa

3. Student ID *

   301603754

4. Which assignment/lab/project submission is this AI use disclosure for? *

   Project submissions are included as "MX" aka Milestone X, where X is the milestone number

   M2-Code   ⌄

5. How do you feel about using AI content generators in relation to your personal standards of academic integrity for this submission? *

	Completely Acceptable	Somewhat Acceptable	Neutral	Somewhat Unacceptable	Completely Unacceptable
In my personal standard of academic integrity, using AI content generators for this submission is...	⦿	○	○	○	○

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

I believe my use of AI content generators in relation to my personal standards of academic integrity for this submission is completely acceptable as I used it to assist my learning and the development of this project. Since I was working on the front end UI development, I was already familiar with how to code it as I learnt the skills through working on my mini project, so AI was used not to take over and replace my own learning and skills but instead to help save time and bring my ideas to life. Although it was used to assist in coding, I was still able to go through the code whenever there was problems, or a specific thing that needed to be changed. The use of AI helped with understanding during the development process and expedited the coding process, so time could be allocated elsewhere such as the ideas of what we wanted to do and how it should look.

7. Did you use AI tools for this submission? *

⦿ Yes

○ No

8. For this submission, how would you rate the relative contribution made by your versus AI? *

	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself
This submission is...	○	⦿	○	○

9. How did using AI content generators impact **your learning** for this submission? *

	Greatly benefited my learning	Somewhat benefited my learning	Had no impact on my learning	Somewhat hindered my learning	Greatly hindered my learning

Using AI content generators for this submission...

○　　　●　　　○　　　○　　　○

10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) *

AI didn't harmfully impact my learning in any way as since I was already familiar with a lot of what I needed (learnt during the mini-project). It did help when I was running into errors or when something was not looking how I wanted it to (visually).

11. List the name all the AI tools that you used for this submission *

Chat GPT, Google Gemini, Photoroom.

12. How confident were you in AI's responses that you received? *

○ Confident

○ Somewhat confident

● Neutral

○ Somewhat not confident

○ Not confident

13. How did you ensure the answer you received from the AI tool was correct? *

Since I used it for frontend development, it was visually apparent if the answer I received from AI was correct or not. Most times, it was not correct initially and needed to be re-prompted many times.

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer. (optional)

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

Yes, there was many times I abandoned using AI tools and seeked other sources, such as my group members (primarily Sven). I abandoned using the AI tool(s) as they weren't able to help such as when I was getting a white screen when trying to locally host the repo. I turned to Sven and he was able to quickly and effectively help me out.

15. For each of the following items, how would you rate the relative contribution made by you versus AI? *

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Writing - Proofreading: To revise written work for grammar, typos, style, and other related items	○	○	○	○	○	◉
Writing - Text Completion: To complete sentences, paragraphs or even entire documents	○	○	○	◉	○	○
Writing - Text Ideation: To generate new ideas, concepts; and examples for writing submissions	○	○	○	○	○	◉
Text analysis: To make sense of text and generate insight as to what it means	○	◉	○	○	○	○
Summary: To quickly understand large amount of text by extracting important information	○	◉	○	○	○	○
Q&A + Research: To get answers from questions and find relevant information	○	○	◉	○	○	○

Illustration/Sketching: To create visual representations of concepts and ideas such as diagrams, charts, illustrations	○	○	○	○	○	◉
Coding - Write: To generate code by AI for software implementation	○	○	○	◉	○	○
Coding - Test: To generate code tests by AI for software implementation	○	○	○	○	○	◉
Coding - debug: To identify issues with existing code for software implementation	○	○	◉	○	○	○
Coding - explanation: To understand what a code snippet does for software implementation	○	○	◉	○	○	○
Other: to help any other aspects of the submission not listed above	○	○	○	◉	○	○

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

"Other": I used AI tools to generate some images and extract it from the background so I can then use it in our web application.

I used AI to assist where I needed help and utilized it to understand what I was doing wrong and the steps I needed to take correct my mistakes. I used it primarily to help write blocks of front end development code to save time and make the overall development smoother. It was also used to comment some fragments of code. I didn't necessarily need AI as my part which was the front end UI development was pretty straightforward but it made it so I can focus/spend more time on figuring out what can be done to improve the UI.
